

## **A. INTRODUCTORY REMARKS**

Please reconsider the above-identified patent application in view of the substitute specification presented herewith.

The substitute specification complying with 37 C.F.R. 1.125 is submitted herewith. No new matter is added by the amendments.

The version of the substitute specification that is marked to show changes made was made in reference to the specification as filed. The substitute specification enclosed herewith contains no new matter and includes corrections to:

Delete paragraphs [0004]-[0011] as filed with new paragraph [0002], which were inadvertently duplicated as paragraphs [0043]-[0046] and [0048]-[0051] in the specification as filed (now paragraphs [0035]-[0038] and [0040]-[0043]).

Amend paragraphs [0088], [0089], [0092], [0097] (erroneous patent number); and

Amend paragraph [0099] (spelling errors).

Amend paragraph [0238], the Abstract, to more distinctly describe the invention claimed.
